

StarTech 20g hővezető paszta

Cikkszám: HEATGREASE20

Ár:

5 590 Ft

The HEATGREASE20 CPU Thermal Paste Compound can be used to improve the effectiveness of a CPU cooler, by thermally bonding the surface of the CPU to the heatsink, which enables the heatsink and fan to work more efficiently to remove harmful heat from the CPU.

This 20g tube of ceramic-based thermal grease is enough for a large number of CPU installations for most home or business computers or any other light application where good thermal bonding between two surfaces is required.

Performance

Bleed	<0.05% at 200°C/24 hours
Evaporation	<0.001% at 200°C/24 hours
Specific Gravity	2.3
Thermal Conductivity	>1.066 W/(m·K)
Thermal Resistance	<0.195°C-m²/W

Environmental

Humidity	10% ~ 80% RH
Operating Temperature	-20°C to 100°C (-4°F to 212°F)
Storage Temperature	-50°C to 150°C (-58°F to 302°F)

Physical Characteristics

Color	White
Materials	Silicone Compounds 50% Carbon Compounds 20% Metal Oxide Compounds 30%
Product Height	0.7 in [18 mm]
Product Length	0.7 in [18 mm]
Product Weight	0.8 oz [24 g]
Product Width	2.8 in [72 mm]

Packaging Information

Shipping (Package) Weight	1.3 oz [38 g]
---------------------------	---------------

What's in the Box

Included in Package	1 - Tube of Silicone Heat Grease Compound
---------------------	---
