Ár:

10 200 Ft

Garancia: 12 Hónap Megj.: Hossza: 22.5cm, magassága: 31.8cm, vastagsága: 0.7cm

Customized LCD material makes handwriting natural and clear

- The tablet uses the customized LCD material, so the blue-green handwriting is super-clear, bold and delicate. Also the board gives a natural and smooth writing experience.

High sensitive pressure sensing technology makes the font-weight of the handwriting changed by the writing pressure.

- Using high sensitive pressure sensing technology and customized LCD screen, the font-weight of the handwriting is affected by writing pressure, the greater the pressure, the thicker, and vice versa.

- Using your fingertips or other objects on the screen allows you to write without delay. With the stylus, you'll have a better writing experience.

One clear button to clear all stuff

- You can easily clear the screen by simply pressing the button and start creating anytime.

No radiation and harmless for children

- The tablet has no blue ray, no flickering, it reflects natural light.

- No ink and chemical pigments, completely harmless to the eyes and skin

Magnetic stylus for friendly usage and easy storage

- Lightweight magnetic pen (only 7g)

- Enjoy the convenience storage instead of traditional clamping.

Lock switch

- Turn on the lock switch to avoid losing the important content.

Long battery life

- If you clear the screen for 100 times every day, one button cell can last for 1 year.
