AX1800 Wall Plate WiFi 6 Access Point

- Superior WiFi 6 Speeds - Delivers dual-band speeds of up to 18 Gbps powered by the latest WiFi 6 technology
- Complete In-Room WiFi Coverage - Guarantees strong signals and corner-to-corner WiFi coverage in each room
- Higher Network Efficiency - OFDMA and DL/UL MU-MIMO* deliver data to multiple devices simultaneously with less lag
- Full Gigabit Ports - Connect multiple devices with four gigabit ports and one downlink port offering PoE pass-through
- Centralized Cloud Management - Integrates into Omada SDN for cloud access and remote management
