Thermaltake Versa T35 Tempered Glass RGB Mid Tower Chassis

Designed for PC builders who want a sleek, liquid-looking supported case with great airflow and a crystal-clear tempered glass panel – the Versa T35 Tempered Glass RGB Mid Tower Chassis is the ultimate and budget friendly PC. Beautifully constructed with two tempered glass panels at the front and on the side allows you to display your interior hardware. The front RGB light bar controlled by the RGB button on the I/O ports further highlights the unique design of the case. Moreover, just like Versa T25 TG, the Versa T35 TG RGB can fit 200mm fans at the front for a greater intake. It supports a huge range of air and liquid cooling hardware, high-end GPUs and even a handy PSU cover in the base.

TT Premium

To continue achieving the corporate mission of delivering the perfect user experience, Thermaltake developed "TT Premium" with the essence of combining supreme quality products with a new logo design. TT Premium is far more than just a guarantee of quality. Behind the name, it represents the passion in DIY, Modding and Thermaltake's desire to be the most innovative brand in the PC hardware market. To satisfy the demand of the high-end PC users, TT Premium follows its core values of Excellent Quality, Unique Design, Diverse Combinations and Boundless Creativity to provide a high performance PC product for every enthusiast.

Built-in PSU Cover

Comes with a full-length PSU cover with a ventilated design to enhance airflow and hide those unsightly cables.

Tempered Glass Window

The two 4mm tempered glass windows at the front and on the side of the Versa T35 TG RGB are built to be more durable, scratch resistant, and transparent for viewing the hardware.

Dust Reduction

A handy magnetic fan filter on the top simply attaches for easy dust filtration and particulate protection. At the base of the chassis, additional fan filters can provide excellent protection against both dirt and dust.

Hardware and Liquid Cooling Support

Versa T35 TG RGB has excellent expandability. It can support a CPU cooler with a maximum height of 150mm, VGA length up to 300mm in length, 60mm RAM height limitation (with radiator), and a power supply with a length of up to 200mm (without HDD Rack). Optimized for excellent cooling capability with one 120mm exhaust rear fan preinstalled, Versa T35 TG RGB is able to house up to two 200mm front fans, up to two 140mm fans on top, and a radiator of up to 360mm at the front and 240mm on the top to allow users to build their desired high-end system.
