Megj.: LOGITECH Signature MK650 Combo for Business - GRAPHITE - US INT'L - BT - INTNL - B2B Focused on innovation and quality, Logitech designs personal peripherals to help people enjoy a better experience with the digital world. We started in 1981 with mice, which (new at the time) provided a more intuitive way of interacting with a personal computer. We became the worldwide leader in computer mice, and have reinvented the mouse in dozens of ways to match the evolving needs of PC and laptop users. Since those early days, we have expanded our expertise in product design beyond the computer mouse, with a broad portfolio of interface devices that are the “last inch” between you and your computer or your console game, digital music or home-entertainment system.

With products sold in almost every country in the world, Logitech’s leadership in innovation now encompasses a wide variety of personal peripherals (both cordless and corded), with special emphasis on products for PC navigation, gaming, Internet communications, digital music and home-entertainment control.
