Glossy PrintPro™ Photo Paper for everyday inkjet printing. Has a smooth, glossy surface. Because of cardboard basis and moderate level of gloss, this paper is suitable for the printing of photos and graphics, both on ink jet printers. When printing using pigment ink is recommended to dry print to prevent blurring from the surface. Store in a cool, dry place and keep away from direct sunlight. Storage temperature from 5°C (41°F) to 25°C (77°F). Best if used within 5 years from manufacturing date. Date of production is on package. Paper does not contain any harmful chemicals. Pictures should be stored in photo albums or picture frames to maintain quality. This paper model is intended only for inkjet printing and personal use.
