2.5GbE stores even more with the Nimbustor 4!
The #1 cloud storage device for live stream
collection and content creators.

- Two 2.5 GbE ports with up to 5 Gbps under Link Aggregation
- Up to 56TB. Store live streams on your NAS
- Overwhelming 4K experience
- 4GB DDR4-2400 - 30% faster than DDR3
- Intel Celeron quad core CPU - 30% faster than previous generation.
- Three year warranty, best in class

Upgradeable 4GB DDR4-2400 RAM

The Nimbustor 4 comes with four Gigabytes of DDR4 RAM and can be upgraded up to 8GB. DDR4 RAM provides up to 30% greater performance than DDR3 while also lowering energy requirements by 40%.

150% Faster with 2.5-Gigabit Ethernet

The Nimbustor 4 provides two 2.5-Gigabit Ethernet ports. Enable up to 150% faster performance than Gigabit Ethernet with compatible hardware and up to 5 Gbps using Link Aggregation.*

*Link Aggregation only supported with compatible hardware. Please check beforehand and verify that Link Aggregation is supported on your equipment.

* Performance figures are achieved in the ASUSTOR lab using state of the art client computers under optimized network settings, and could vary in different environments. Ordinary desktop or notebook computers may be unable to reproduce these figures.

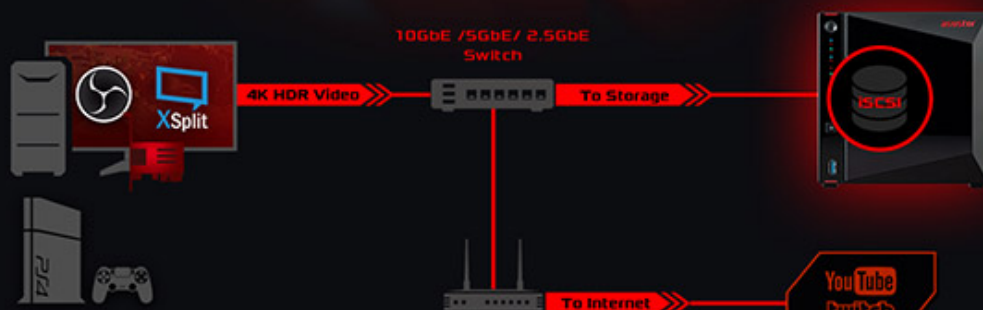

All New Gaming-Inspired Theme for ADM

Take a look at the all new gaming-inspired elements brought to ADM.

Live Streaming With Your NAS

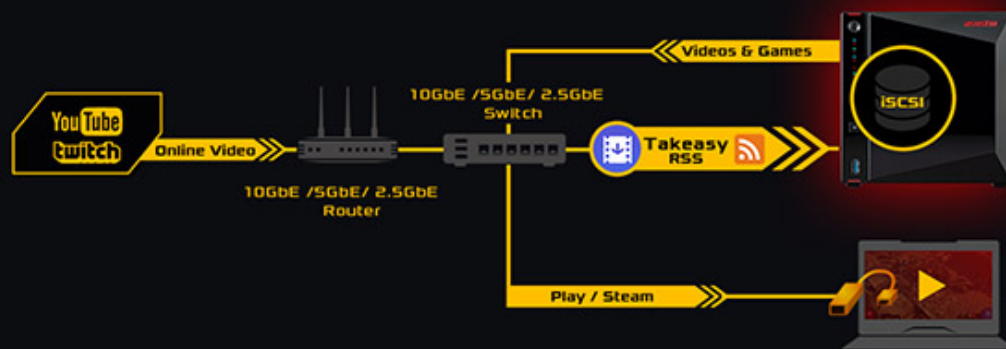

ASUSTOR NAS devices offer live stream records in up to 4K HDR to be saved directly onto a NAS without affecting game performance. For gamers without large hard drive capacities, LAN parties and internet cafés, ADM offers iSCSI to store less demanding titles to play across multiple devices simultaneously.

10GbE / 5GbE / 2.5GbE
Router

YouTube

YouTube and Twitch as cloud platforms are not always reliable with long-term archival of content and videos may be deleted without notice. For that, ASUSTOR provides Takeeasy, an app that downloads videos from YouTube and Twitch for archival purposes and can automatically download all public content from a specific channel.

As Much Space as Needed

The Nimbustor 4 supports up to 56TB, enabling storage of large live streams and videos. Complement gameplay recordings with a NAS. Not enough? Expand your Nimbustor with up to three AS6004U expansion units for a total of 168TB.

Max
56TB + + AS6004U X3
168TB

Overwhelming 4K HDR Experience

The Nimbustor features HDMI 2.0a with 10bit 4K hardware decoding, HEVC decoding and VP9 10bit Profile2 decoding for a smoother experience and lower CPU usage. Use Plex Pass or a third-party player to play 4K HDR videos.

A New Look

Diamond-cut exterior with gaming-inspired elements. ASUSTOR's Nimbustor features a diamond-cut exterior with new gaming-inspired aesthetic. Installation of hard drives is easy with the included toolless caddies while also supporting hot swapping.

Ultra-quiet Operation

The AS53 series devices produce only 19 decibels of noise during system standby, equivalent to the almost inaudible sound of a pin drop. During system operation, only 32 decibels of noise is produced, equivalent to the hushed tones of a quiet library, allowing the AS53 series devices to seamlessly and comfortably integrate into any living environment.

24/7 Reliability and Durability

All ASUSTOR NAS are designed for and are suitable for 24/7 use. ASUSTOR NAS devices have also undergone rigorous tests, such as drop tests and burn tests to test durability in extreme conditions. Heatsinks were added to sensitive components to dissipate heat, helping to maintain the longevity of the device.

Save Power to Save Money

ASUSTOR NAS products are designed and developed around ecologically friendly concepts. When in use, our devices consume far less power than the average computer or server. Furthermore, our advanced power control features allow you to more efficiently manage your NAS device and hard drives. This lowers your electric bill and prolongs the lifespan of your hard drives all at the same time. While in disk hibernation, the AS5304T consumes only 12.6 W of power. Under normal operating conditions it still only consumes 27 W of power.

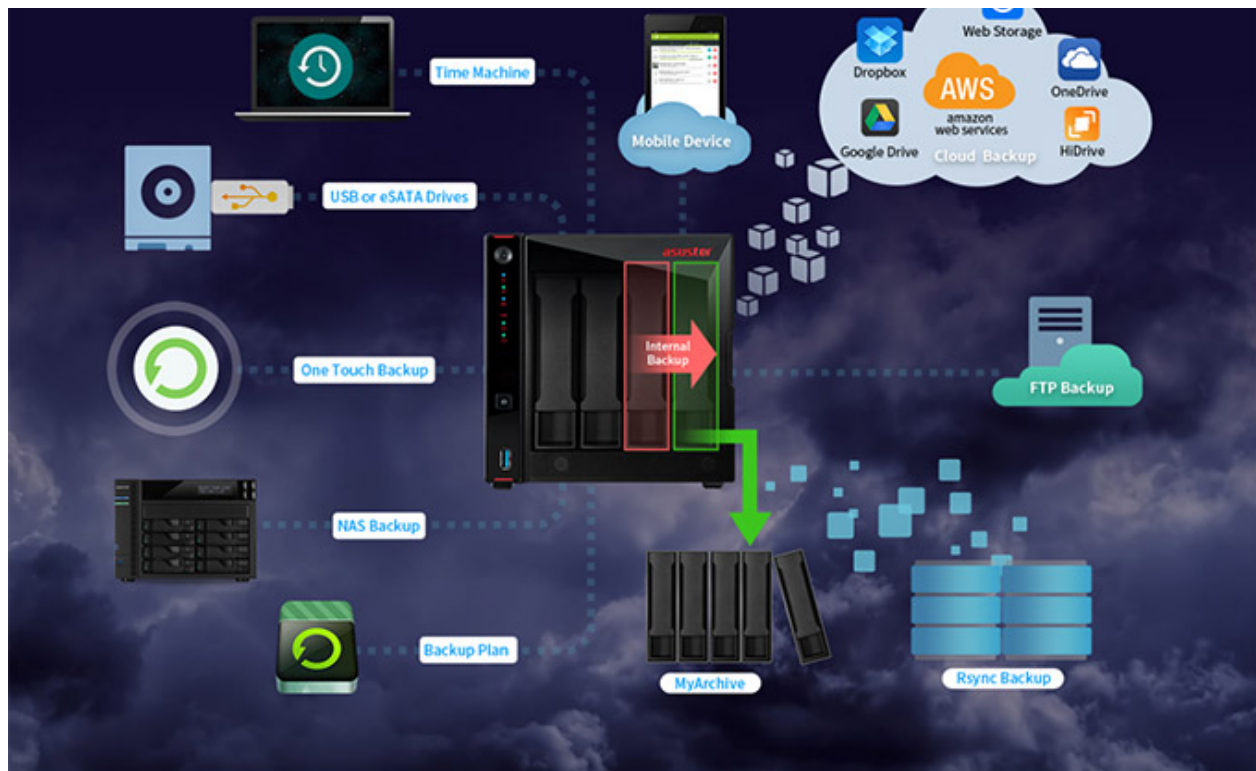

Comprehensive Backup Solutions

ASUSTOR's comprehensive backup solution provides more than twelve backup options, including, but not limited to Amazon S3, Dropbox, Google Drive, and Onedrive. ASUSTOR Backup Plan for Windows as well as Time Machine for macOS provide easy backups for desktop and laptops while MyArchive removable hard drives provide long term storage. Btrfs is now supported and with Snapshot Center, can take snapshots of your information in the event of unintentional modification. Restore previous versions easily with Snapshot Center.

Exclusive MyArchive Cold Backup Technology Unlimited Capacity Expansion

MyArchive cold backup technology turns NAS hard disks into removable storage archives. Directly insert a MyArchive hard disk into the NAS to easily access, backup and share terabytes of content.

[Learn more about this >](#)

Snapshot Center

Snapshot Center is a new feature for ASUSTOR NAS devices to utilize Btrfs and iSCSI volumes to take snapshots of the information inside a NAS. Snapshot Center supports up to 256 snapshots of a volume and can be done every five minutes, creating a backup that can be restored easily if data is damaged or lost.

Effortless Connections to Your NAS

ASUSTOR NAS devices support automatic port forwarding to allow remote connections to the NAS. Automatic port forwarding eliminates the need to manually configure routers. ASUSTOR EZ Connect is an ASUSTOR service that allows customers to easily connect with a customized Cloud ID and access their information while away. ASUSTOR EZ Connect supports Windows with a desktop client while EZ Connect is supported on mobile devices through ASUSTOR's Ai Series of apps.

Protected From the Inside and Out

Protect your data from loss, damage and attacks with the Nimbuster 2 and 4. A Nimbuster is better protected by running the Linux-based ADM, employing a built-in firewall, ClamAV Antivirus, MyArchive and ADM's various backup tools help protect ransomware even better.

Network Attack Protection

- Firewall
- ADM Defender

Secure Data Transmission

- VPN connection
- SSL certificate connection
- Automatic logout

Internal Data

- MyArchive offline backup
- AES-256 folder encryption
- Antivirus software

Access Control

- File/folder/app isolation
- 2-Step Verification

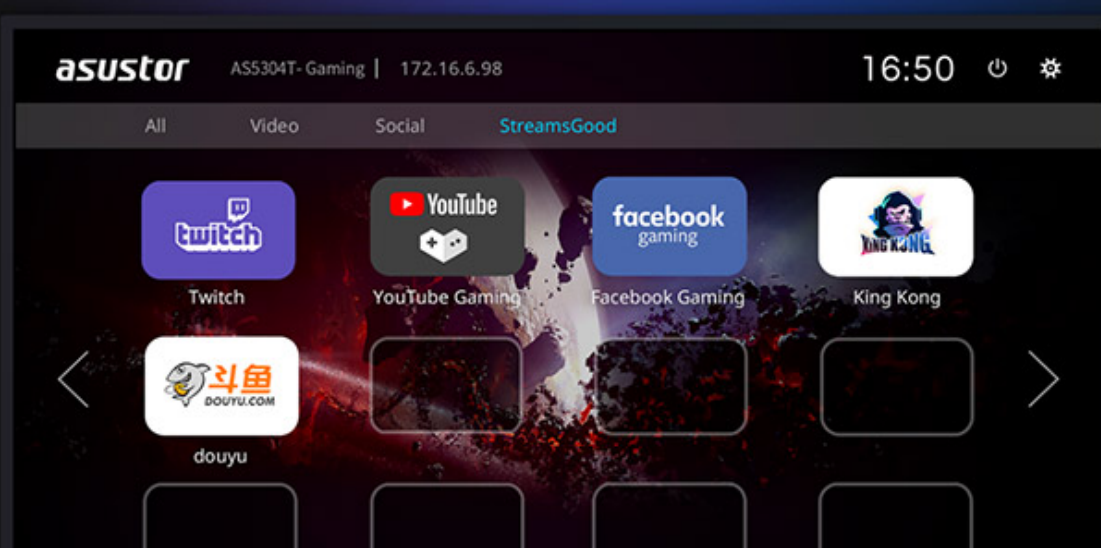

Created for the Digital Home

ASUSTOR NAS allows you to enjoy thrilling digital entertainment at any time. Via the built-in HDMI port and various multimedia Apps the NAS can be connected directly to ultra high resolution TVs and players. Enjoy multimedia with family and friends or use the UPnP multimedia server to stream your favorite media to compatible computers and mobile devices.

Comprehensive Surveillance System

The powerful ASUSTOR NAS provides optimal reliability for home and SMB users looking to set up a surveillance system. 4 free camera channels are offered, making it an extremely cost-effective surveillance solution for users with smaller demands. For users with larger demands, the number of camera channels can be expanded up to 36 via purchasable camera licenses. After installing Surveillance Center and its corresponding mobile app AiSecure, users will also be able to stream live surveillance feeds to their smartphones while on the go, keeping an eye on their most valued assets from anywhere.

Purchasable Camera Licenses

Compatible with a wide range of cameras

5 Steps 60 Sec

Setup your surveillance system in a flash

- 1 Start quick installation wizard
- 2 Automatic camera search
- 3 Add cameras with just one click
- 4 Configure video format
- 5 Configure recording schedule

Mobile Apps

ASUSTOR's exclusive EZ Connect technology allows you to connect to your NAS from anywhere with your Mobile device in order to access and share your files. ASUSTOR mobile apps provide pass code lock functions in order to protect your privacy and data. You can also make use of HTTPS connections for even more added security.
